Claims 74-78 and 80-96 are pending. No claim is allowed. Claims 74-78 and 80-96 are objected. Presently claimed invention is drawn to the compounds and composition of formula 1 and XIIa.

*Allowable Subject Matter*

Applicant is requested to limit the claims as were originally presented and add method claims of the same scope which were considered allowable as was indicated in our previous Office Action.

The claims 74-78 and 80-96 are allowable with the same scope as was originally claimed. Therefore, these claims are now objected for containing new subject matter. Applicant should cancel the substituents that were not examined before.

The closest prior art is US Patent 3,284,289. Prior art does not teach the substituents as presently claimed. Applicants may add method of use claims of the allowed genus of the compound of formula. Non-elected invention should be canceled.
